PREFACE.

The Japanese Books and Manuscripts which are described in the present volume have been acquired by purchase or by gift during the years 1899–1903.

A large proportion of these works have reference to the art of Japan, and consist in many cases of the reproductions of the drawings of distinguished native artists. A considerable number formed part of the celebrated collection of the late Dr. William Anderson, and were purchased from his executors in 1900.

The entries are arranged in accordance with the system adopted in the earlier volume of the Catalogue.

ROBERT K. DOUGLAS,
Keeper of the Department of Oriental Books and MSS.

British Museum,
September, 1904.
